“Trans Liberty Riot Brigade” Book Launch to Raise Money for Olympia’s “Rainbow Health Center”

A shocking dystopian vision of government control over the bodies of citizens and those who fight to oppose them.

Olympia, WA, June 6, 2017: On July 16th, Olympia author L.M. Pierce will appear at Obsidian Restaurant and Lounge from 6-8PM to celebrate the release of her debut novel, *Trans Liberty Riot Brigade*, and raise funds for Olympia’s “Rainbow Health Center.” Raffle prizes, free swag and merchandise, and signed copies of *Trans Liberty Riot Brigade* will be available for purchase. The book is also available online through NineStar Press and major retailers.

L.M. Pierce will donate 50% of her first 24-hour proceeds to Olympia’s *Rainbow Health Center*, “a healing space for the unique needs of non-mainstream participants and their network of providers, including transgender; new immigrant families; and unaccompanied refugee minors.”

Trans Liberty Riot Brigade seeks to bring attention to the increasing legislative and social violence levied against those who are “different” and highlights those who will fight to resist it. The book explores a speculative future where the government mandates surgical assignment for the 40% of citizens being born intersex. The “United Free States” has become a xenophobic isolationist country, with—wait for it—a giant border wall that provides not only power, but defenses against the supposed threats of the Outside World.
